Major H. L. Lloyd of Cincinnati wants to be Minister to Belgium.

The noted station Birkdale died at Edgewater Stock Farm near Cynthiana.

There are said to be just nineteen Americans, and no more, fighting in the Cuban army.

It is now reported that the Greek Government has offered to buy the island of Crete.

Great pressure will be brought to bear, it is believed at Washington, against the retention of Claude M. Johnson as Chief of the Bureau of Engraving and Printing.

The American clipper Oakes, which sailed from Hong Kong 239 days ago and was long believed to be lost, was found last night in port at New York Sunday. A terrible story of death, deprivation and suffering was told by the survivors.

THE FIRST STEP.

Street Railway Company Will Sued For a Good Round Sum.

Tuesday evening, March 9th, Isaac Thomas, a fifteen year-old lad, was shocked so badly by a live electric wire that he died soon after.

The accident happened near the junction of Second and Carmel streets.

And the wire belonged to the Street Railway Company.

CHAPTER II.

In the County Court yesterday Mr. J. H. Thomas, father of the unfortunate boy, qualified as his Guardian, with Attorney Alton D. Cole as surety.

The natural sequence of this step will be the filing of suit against the Street Railway Company for damages.

And it is the opinion of those who know that the greatest possible damage that could befall the defendant would be in taking the Street Railway itself and paying its running expenses.

REGULAR "SQUEALER."

Cincinnati Boniface Betting "Authority" Called to Time in Court.

In Cincinnati Harry Rosenbaum, the fourth street merchant, has sued Horace Dunbar, Proprietor of the Gibson House, to recover \$100 on an election bet.

As far back as November 9th, 1893, Rosenbaum wagered Dunbar \$100 that McKinley would be elected President of the United States, if nominated at the next Presidential Convention.

Dunbar accepted the bet, but has persistently refused to pay over the money that he lost, and Rosenbaum sees to recover.

Mr. Dunbar is the alleged sporting authority who decided that McKinley did not carry Kentucky, and upon whose unsupported "say so" a few Mayvillians have refused to pay their bets. He evidently does not know that McKinley has been inaugurated, and if the question were put to him he would probably "decide" that bets on McKinley's election had been lost.

Some time ago sparks from a C. and O. locomotive fired the barn of Mr. Wilson near Dover, burning it and completely killing a young son of Deputy Sheriff William Rudolph.

Mr. Smith brought suit in the Mason Circuit Court and got judgment for \$600. The Railway Company carried the case to the Court of Appeals, and that body reversed the judgment of the Mason Court.

FREE-TRADE VS. PROTECTION.

Comparative Figures That Ought to Forever Settle the Merits of the Systems.

The official figures of the Treasury Department at Washington are much better proof for or against any system than the unsupported declarations of Free-trade demagogues.

The Wilson-Gorman Free-trade Tariff Law has now been in operation 30 months, and THE LEDGER presents below the official figures, showing the total receipts from customs duties during that period, compared with the receipts from the same source during the first 30 months of the McKinley Protective Tariff.

The reader is left to draw his own conclusion as to which policy is best for the American people.

Loss in 30 months under a Democratic "Tariff for Revenue Only." \$106,227,586.

The clearness and the firmness of his course in the JACKSON-WALLING case has won for GOVERNOR BRADLEY no stinted praise from the press and people all over the land.

THE NEW YORK bank statement for the week ending March 20th shows a decrease in cash holdings of \$5,755,900. In other words, during that week \$5,755,900 additional was put in circulation among the people. Let 'er circulate!

IMPORTERS are getting ready for the Dingley Bill by importing large quantities of goods. It is said that it will be no surprise if the increase in receipts shall be sufficient to wipe out the present deficiency by the close of the fiscal year, June 30th. Now, right here is where you want to stick a drapery. Under the present Free-trade Tariff Law the American markets will be flooded with foreign goods, so that for nearly a year after the passage of the new Republican Protective Tariff Law there will be but few importations and consequently but little revenue from that source. This, of course, will cause the Free-traders to set up a howl that the Protective Tariff doesn't produce as much revenue as the present bill, nor does it open the American factories to American workmen. But just wait until the supply of goods imported under Free-trade is exhausted and then you'll see how the thing works.

DEMOCRATS who have begun to throw stones at the Dingley Bill because it is based upon the McKinley Law, should remember the old adage about people who live in glass houses. They assert that the Dingley Bill will prove a failure, and base this assertion upon the false claim that the McKinley Law failed as a revenue producer. The fact is that up to the very hour that the Free-trade President called the Free-trade Congress together to destroy the

McKinley Law, that measure had met every expenditure of the Government and created a handsome surplus. The McKinley Law had been in operation 31 months when the Free-trade Congress met in August, 1893, to destroy it. During that time the receipts had been \$13,575,496 in excess of all expenditures of the Government, and it doubtless would have gone on creating a surplus up to the present time, but for the disastrous Free-trade experiment inaugurated by the people of this country in November, 1892, and repudiated in November, 1893.

THE Free-trade wing of the Democracy is reviving the old lie, in which it charged that the McKinley Law did not produce sufficient revenue. This revival is occasioned by the fact that President McKinley in his message called attention to the deficiencies under the low Tariff Law and recommended a Protective Tariff, and by the other fact that the new Tariff Bill is based upon the McKinley Act. Those who are charging that the McKinley Law will be but few importations and consequently but little revenue from that source. A CYCLONE

Wrecks a High School Building at Arlington, Ga.

Eight Students Killed Outright and as Many More Will Die.

Not a Single Soul in the Building Escaped Injury—Two Professors Are Among the Dead. A Severe Storm at Blackley, Ga.

ATLANTA, Ga., March 23.—A special to the Evening Constitution from Atlanta says:

A cyclone struck this town Monday and left behind it a trail of death and disaster. The high school building was blown to pieces and from the wrecks nearly a hundred dead, dying and injured people have already been taken.

Among the dead are the following scholars: Ollie Parramore, Claude Roberts, John W. Walker, John Butler, Willie McElroy, Kenneth Boynton, Claude Johnson, Mary Wallace.

Injured: Prof. Covington, school teacher; Prof. Walker, teacher; Prof. Wood, who will die, according to the hasty reports of the corps of emergency physicians now caring for the injured. Prof. Walker probably can not live, and Prof. Covington is badly injured. Not a single soul in the building escaped injury.

At about 2:30 o'clock there was a lull in the high winds which had prevailed, giving some promise of a clear day. Prof. Covington was summoned to the college of physicians and surgeons. He did this as blind as he never took up the course.

At about 3:30 o'clock, with H. C. McCabe, police reporter of the Baltimore World, and went with McCabe to the police station soon after his arrival he was recognized by Eugene Granen, former editor of the H. & O. & D. Wood, who, in his efforts to identify, and told McCabe the story of his connection with Earl Bryan's murderer.

Wood had copies of his own and the originals of Jackson's letters in a scrap book which he showed McCabe. He said that he thought McCabe had been engaged in the killing of a dissolute woman about Christmas and took up his residence with her. Dr. Dawson, pastor of the Guilford Avenue, E. Church, friend of Wood's father, tried to persuade him to have the woman, but to no avail.

Wood's father wrote to McCabe, begging him to save his son. All the efforts of Dr. Dawson and of McCabe were in vain. McCabe, however, was not to be beaten. He was engaged in the earnest Y. M. C. A. worker, was called in. He went to Wood and ordered him to leave town, supplying him with a ticket bought with money sent by Wood's father. This was three weeks ago.

Wood told McCabe he would visit Greenastle for a week, and then proposed to sail to South Africa, where he could escape newspaper hounding. He seemed weighed down with remorse.

The chaos caused by the storm still exists and during the confusion nothing can be definitely learned as to the amount of harm done or the number of lives lost.

It is known, however, that several are killed and many more so severely injured that they will probably die.

Our Public School that was very suecessfully taught by T. W. Pollett closed Saturday, the 20th inst., with a very enjoyable entertainment held in the Church Saturday evening. The exercises opened at 7 o'clock by Elder Tomlin invoking Divine blessing, and consisted of decisions, testimonies, and a short sermon. A stirring hand of six musicians furnished the music. The house was packed to the doors, and good order prevailed throughout the evening. Some of the crowd came quite a distance, Mayville, Orangeburg, Flemingsburg, Dover, Springdale, Toleboro, Bridgeport and Rectorville being well represented.

I sprained it yesterday."

"In occasion you any serious inconvenience?"

"I should say it does. I tried to take a drink yesterday out of a two gallon demijohn and I couldn't lift it up to my mouth."
